

Quality Policy

The route to continual success for I.C.S. Electronics Limited lies through:

- Providing products and training that constantly meet customers' requirements
- Adhering to delivery times

It is the policy of I.C.S. Electronics Limited to:

- Maintain and implement an effective management system
- Continually improve the effectiveness of the management system
- Establish and monitor measurable objectives
- Commitment to comply with applicable statutory and regulatory requirements
- Operate in accordance with best practice
- Ensure that staff are competent to carry out assigned work

Staff must:

- Understand the importance of their tasks in meeting company objectives and customer requirements
- Be aware of the specification of the product that is a result of their task
- Achieve the required product specification
- Contribute to the development and improvement of work processes and the BS EN ISO 9001:2008/15 management system

This Quality Policy and associated quality objectives are established and reviewed within each management review meeting; are communicated and understood by all levels of our organisation for its continuing suitability and effectiveness in achieving the aims assured and are accessible, as appropriate, to all relevant interested parties.
